

1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? (200 words max)

a. My short-term goal is working on finding an internship for the summer. I also have short-term goals of traveling abroad to LSE for a year, during junior year. I am also interested in other travel abroad options if I decide to change my mind on the LSE program such as BRIC, Chile, and other European study-abroad.

b. My long-term professional goal would be to work at a creative company that is hiring a data analyst. I am currently taking QTM3 and the class is extremely useful in pursuing my concentration of Data Analytics. The future requires hard skills like coding and I am currently learning R. AKPsi can help with my professional endeavors because many of the brothers have gone to study abroad and know the experiences. I know that many of the AKPsi brothers travel abroad on vacation and I love to travel. AKPsi brothers are also able to teach me how to become more proficient in Tableau, R, and Microsoft Suite. It takes practice to get better at using these applications, like sharing shortcuts and tricks.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood? 150 words max)

a. I can contribute my time and dedication towards events. Due to my good organizational skills, I can devote volunteering hours. Last year, I participated to plant a tree on 4/20 and found out that fraternity and sororities needed a certain number of volunteering hours. The sustainability club was very proud that I volunteered on the kindness of my heart. I plan to contribute this enthusiastic and supportive side of me to this family. I found the software Tableau to be extremely useful in visualizing data. I plan to collect data from the brothers and create visual diagrams and displays to present to the E-board for future recruiting purposes! Data such as where brothers have been abroad to, where they are from using symbol maps. I can also create trend lines to show increase number of applicants throughout the years.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? (200 words max)

a. What makes me unique is that I am resilient and radiant. I rushed last semester and did not receive a bid. I believe this was because I did not put in all my effort because I

rushed DSP and AKPsi. Now that I have experienced both business fraternities, I know that my heart is with AKPsi.

b. Throughout my first-year at Babson, I have become a lot more professional. I interned at a government firm for Parks operations during the summer and was able to attend executive meetings, as well as employee performance evaluations. At first I did not realize how much goes behind the scenes to manage a single park.

c. At Babson, I became the BOW ambassador this week! I am also an SGA representative for First Gen Club. I plan to share my love for this fraternity with the people in my organizations. First Gen club is planning to incorporate a mentorship program, similar to the BAPSA mentorship program. Lastly, I am living in the Sophomore Leadership Community in Putney and we plan to create many events that will help us develop our professionalism. No matter where I go, I will spread my love for this family.
