

1. What are your short term and long term professional goals?

My short term objective is to further develop my verbal communication skills, creative thinking, and time management in order to value not only to my YouTube subscribers, but to be an active member of Alpha Kappa Psi in pursuit of my professional development.

In the long term, I want to finalize my business plan to form my first restaurant which would combine both of my passions: cooking and entrepreneurship.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors?

One of biggest asset that Alpha Kappa Psi has to offer to me is the brothers within the fraternity, from talks to Aiden, E, to Julia they see value in my goals. Furthermore, businesses networking within Alpha Kappa Psi would allow me to transform my short term and long term goal into tangible realities which would further develop my entrepreneurial mind.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood?

From a young age, I saw the value of social development, therefore I started “Dynamics” a volunteer mentorship program that would allow low-income minority student to college access. As an active network to Dynamics alongside with my internships from financial services to law, I plan to use my knowledge to become a resource to my fellow brothers and future recruits in order to fulfill my personal mission to give access to business development in hopes to create social value to all including the brotherhood.
