

1. Spades, Hearts, Clubs or Diamonds. Which one are you and why? (150 words max)

Out of all the card suits the Clubs represent me most. This is because in most card games the clubs are always the weakest suit. But since they are found on many flowers as clovers they represent calmness and being slick. I see myself in the same way in that I like to be and feel that I am an underdog because I may not be the best at everything but I work hard. I feel that while I may not seem like the best person for a certain job, I am always able to get it done and especially in a smooth manner. Whenever something goes wrong along the way I do not overreact and overthink what is happening, I stay calm and think it through by blocking out all external pressure.

2. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? (150 words max)

Whether it be organizing events or just listening in team meetings I think my work ethic will allow me to be a team player in Alpha Kappa Psi. I always hear that the brothers can help me build professional connections, with my resume and guide me to get internships but I feel that being part of AKPsi is more than that, it is about building long lasting relationships. I love the idea of getting help but I also want to impact the people around me, whether it be helping a brother out or giving advice, I want to support people grow. Being able to go on this journey with other brothers excites me as I want to develop the organization through innovative ideas.

Collaborating with other brothers who have had different experiences will enable us to use our different worldviews to help AKPsi continue its strong legacy at Babson.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? (200 words max)

I am a person who sets goals and these goals are what drives my focus. My experiences have enabled me to work with others efficiently to develop projects. These elements have made me enjoy learning new things as I want to constantly develop new skills. An example of this is in my high school I set up the first live stream for my schools sporting events. I am not a high skilled technology person but I am able to work until I am able to make a difference. Growing up in a multicultural environment I have interacted with people from many different backgrounds and I feel that I am able to bring a unique perspective in the way I think that will leave a positive mark at Alpha Kappa Psi. I am really passionate about business, especially finance, and want to be able to collaborate with other brothers whether it just be ideas, some guidance or full developed projects. With these components I know that I will be able to make a positive contribution to AKPsi.
