

1. What are your short term and long term professional goals? **(75 words max)**

After graduating from ESADE this June, I will join Morgan Stanley's Investment Banking team in London. For the short term I see myself there for a couple of years to learn as much as I can, since the fast-paced work and high exposure to clients is the perfect environment for that. However, for the long-term I want to start a project of my own with social impact, leveraging on my previous experiences.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

Alpha Kappa Psi seems to be the perfect place to get to know people with similar interests to mine but with different experiences, so I hope to learn from them and hear about their projects. This kind of community is also something I have never experienced back home in Barcelona, and I would love to see first-hand what it is like.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

I consider that in the same way it benefits me, the rest of the brotherhood would benefit from my experiences being different to theirs. I want to think that coming from a different university and from Spain I can bring new ideas and perspectives to the table that will add value to the community.

Additionally, after going through the application process and summer internship at an investment bank, I am always willing to help anyone who wants to get into the sector. There are many things I wish I had known before and I am more than happy to talk about my experience to anyone interested.

Lastly, I see being here just for a semester as a benefit more than a drawback; I am trying to make the most out of my exchange at Babson and becoming involved in a business fraternity will definitely enrich my learning experience.
