

# Alpha Kappa Psi Professional Application

## Questions

1. What are your short term and long term professional goals? **(75 words max)**

I want to get exposed to all facets of business so I can hone in on what career I want to pursue. Working for a start-up this summer will provide me with the responsibility and versatility in roles within the company I'm looking for. In the future, I want to work for a streaming service like Spotify or a record label as a data analyst, and own a gallery to curate shows in New York.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

AKPsi will provide me with more experience and exposure to a professional environment. Being around people so committed and passionate will ensure that I'm never satisfied with where I am, pushing me to explore new opportunities and be ambitious and creative in my endeavors. AKPsi has the support and structure I need to thrive in the professional world. Each brother has a variety of interests, making them invaluable resources I can call upon for anything.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

As a brother of AKPsi, I would be able to promote the relationship between the art and business worlds. I view myself as someone who has both a creative and analytical mindset, allowing me to see things from two opposing perspectives. I feel this gives me the ability to give critical feedback, as well as push people creatively in a direction that will allow them to stand out from others. Having worked with curators for art shows in the past at various venues, I have been able to see first-hand the business side to industries in which it does not seem as prevalent. Working with people from hospitals, churches, and colleges, I have been exposed to the way in which a business education would transfer to other industries. I think that this experience is rather unique, and makes me a resource that other brothers can tap into when needed.

## Optional Submission

If you have any personal work (i.e. poem, art piece, programming scripts, etc.) that will help us understand your professional capabilities even further, feel free to include that with your application as well.

This is a 1000 crane senbazuru paper sculpture that me and my mother created for an art show held in a hospital in New Jersey. This piece represents the myth that if 1000 cranes are folded the wish of those who created them will be granted by the gods. Our wish was to find a cure for those afflicted with cancer.
