1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? **(200 words max)**

My short term professional goal is to be hired by a large company in US that has branch in Jakarta, Indonesia such as global investment bank, consulting firm, or advisory so that I can be assigned to the branch in my home country. However, I do not want to always work for a corporation as I want to create a start-up and contribute in the economic development of Indonesia. This will not only make me proud of having created something, but will also provide jobs for people in my society. Being an entrepreneur is not that simple. It is not only about being a leader of a company and making profits. However, I have to be able to work in teams, to learn how to manage time wisely in order to implement works well, handling miscommunication among members and take everyone's views and then had to make the decision that was best for the organization. I believe that I will gain these essential knowledge and skills by joining AKPSI and this is a lifetime experience that will be useful for me for starting my own business in the future as well as to start my professional career in large corporations.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood?

150 words max)

I used to be a vice president of student council in high school. My experience in that position has changed and shaped me into who I am now. It developed my leadership, listening and organizational abilities. It also sharpened my critical thinking and problem-solving skills. In the course of my role, I faced many obstacles, such as differing perspectives, debates and issues due to miscommunication among members. With these qualities in me, I believe that I will be able to contribute to this organization success, to collaborate with my peers to achieve the goal, to communicate clearly, respect other opinions, and maybe to create new events, such as retreat for everyone to strengthen the bond between the brothers even more.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

As I grow up, I realized that intelligence without characters is nothing. People with intelligence will never be forgotten, however, people with characters will always be honored. For me, the most important attitude a person must have are perseverance and honesty. I believe those have been implanted in me since I was a child, as I am able to apply them in my daily life. I keep my goals visible all the time, if I dare to dream about something, I attempted to achieve it. This keeps me to stay focus on something I have to do and pay less attention on worrying about everything that could inhibit my desire to chase that dream. Whenever I face difficulties I will lose my hope for 1 second but right after that time forward, I will be very optimist and believe in myself more than ever before. Sometimes, people lie to get into and out from something, avoid embarrassing moments, as well as to keep them safe from any difficulties. Genuinely honest people can rarely be found in today's generation. However, I am one of those few people. My friends often say that I am the worst liar as I will laugh or smile immediately every time I lie.
