

Alpha Kappa Psi Professional Application

Questions

1. What are your short term and long term professional goals? (75 words max)

A short term goal is to find my love for a certain subject or concentration. So as I am still exploring, I am enjoying business analytics therefore I want to find an internship in this field. As for a long term goal, I want to make a name for myself, as a successful business woman. This answer may be generic however I want to prove that woman are in equal standing as men are.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? (75 words max)

With brothers from different backgrounds, with different concentrations, as a whole AKPsi is a community with a greater knowledge about business than any other organization on campus. The workshops, case competitions, and consulting skills each brothers have will strengthen my skills and further help me accomplish my professional goals.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? (150 words max)

As a brother of AKPsi, I would contribute professionally to the brotherhood by holding some workshops on creating business PowerPoints, finding accurate statistical data, and designing cover page or portfolio samples using Adobe Illustrator, Photoshop, InDesign for job applications. In high school I took some courses on graphical design, where I learned how to construct portfolios and cover pages on Adobe InDesign, Illustrator and Photoshop and really want to share my knowledge and skills with other brothers. During my freshmen year of college, I was part of an organization, Tie-Off, where Babson graduates taught me how to design PowerPoints for various types of presentations and also showed me where to find accurate statistical data to support our business research. I would like to demonstrate these skills to brothers in AKPsi, as mentors have taught me.

Optional Submission

If you have any personal work (i.e. poem, art piece, programming scripts, etc.) that will help us understand your professional capabilities even further, feel free to include that with your application as well.

This is a blog I maintained in high school, that helped me physiologically understand who I am as a person. <https://demic2016.wordpress.com/>
