

1.

My short term professional goals are to expand my professional network and to develop myself professionally. In addition, I aim to get an internship at a financial firm during this summer. My long term professional goals can be divided into two steps. First step is to gain experience and knowledge by working in a financial firm. Next is to start my own financial firm in Myanmar to help the country.

2.

I believe that Alpha Kappa Psi can help achieve my short term goals due to the fact that it consists of vast network of brothers with professional experiences, allowing me to expand my professional network and to develop myself professionally. As for the long term goals I believe that the Alpha Kappa Psi alumni network will broaden my opportunity to get a job and possibly find a partner when starting my own firm.

3.

First and foremost, if I was a brother of Alpha Kappa Psi, I would contribute professionally to the brotherhood by creating marketing materials. I have been doing this for several years now, and I believe this is one technical expertise that I am confident I can contribute to the brotherhood. In addition, I would contribute by completing any finance related tasks to the best of my ability. Although I know there are many brothers who are far more experienced than me in this area, I am willing to learn and assist in any way I can. I can also contribute professionally to the brotherhood by helping any brothers who are interested in working in either Japan or Myanmar. Last of all, I am ready to contribute my full commitment and give it my all for the brotherhood.
