

Alpha Kappa Psi Professional Application

What are your short term and long term professional goals? **(75 words max)**

My long term-goal is to improve my social skills communication skill, which I feel to be lacking. I believe that having a better communication skill would help me in my career. In the short term, my goal is to be more active around campus by joining organizations and getting a job on campus. Networking with people will support me to reach my long-term goal.

1. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

From the networking sessions of AKPsi that I have attended, I learnt how people got their internship or their struggles of starting a business. These are real world experiences that I won't get from a class, yet AKPsi is full of these kinds of experiences for me to learn from. I believe that real world experiences will make me a well-rounded person that can aid me in getting a job or starting my own business.

2. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

My experience includes internship in an international bank and an e-commerce company. Although I was in high school in one of my internships, I was able to contribute to the company's startup strategy and market research, which taught to always give my best effort no matter how small I think my contribution is. Besides internships, I led organizations such as organizing a school-wide sport event and high school student council, I learnt a lot of skills in performing the duties that I have in these organizations such as Photoshops, Lightroom, photography. If I am a brother of AKPsi, I will make sure that I give the best of my abilities to fulfill the duties given to me and to learn any skills necessary to make sure that it is satisfactory.

Optional Submission

Here are some of my photography and editing works I have done.
