

## Questions

1. What are your short term and long term professional goals? **(75 words max)**

Coming to Babson, I had the goal of majoring in finance. Realistically though, I realize that could change after taking a course centered on finance. As a result, my short term goal is to find a concentration that I am passionate about and to find internships to get a feel for different career interests. My long term goal, if I do end up majoring in finance, is to work at a corporate finance consulting firm.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

I think AKPsi could help me find my passions and niche in business as well as internships and job opportunities through their multiple networking events. In addition, by just talking to brothers and gaining their perspectives from their experiences, I think I would become a more versatile job applicant. I also think it is the perfect organization to improve my public speaking and networking skills both of which are essential for business.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

As a brother, I would contribute my experiences adapting to other cultures and assimilating into different environments, which are critical for professionals since business is a global and collaborative initiative in this day and age. Living in India and China has shown me how valuable knowledge of customs in a country are in furthering

professional relationships as well as how easy it is to build strong, lasting connections with business associates. In addition, I can contribute my work ethic and commitment to accomplishing tasks in a timely and efficient manner. This would be helpful in planning events and other organization get togethers.
