

Sarah Liu  
Alpha Kappa Psi Application

**1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? (200 words max)**

My short term goals here at Babson are to make new friends that I can maintain long-lasting, meaningful relationships with going forwards. I also want to start becoming involved in organizations on campus so that I can explore my interests as well as discover new areas of passion. One of my long term goals is to do or start something to make a difference in the world. I am passionate about helping others and creating social change, so I would love to start my own charity organization one day. I hope that after graduating from Babson, I will have the financial resources, experience, knowledge, and connections necessary to be able to affect significant change.

As part of Alpha Kappa, I would have the opportunity to act as part of something bigger than myself, where my actions can resonate with a greater impact. Beyond gaining valuable connections through the brothers and alumni network, I want to experience the feeling of belonging to a close community that is unique to a business fraternity. I love the idea of growing socially and professionally along with a supportive community of brothers.

**2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood? (150 words max)**

I consider myself a hardworking and persistent person, and put one hundred percent into everything I commit myself to. If I were to be a brother of Alpha Kappa Psi, I would be very dedicated in making sure that I do my part to improve the fraternity by contributing unique ideas and being involved. I have confidence in my work ethic and my ability to inspire others.

I also like to think that I could contribute positively to the social environment at Alpha Kappa Psi. I always try to stay positive and upbeat, and do my best to lift the people around me. I am very invested in the well-being of all of my friends, and I care a lot about people as individuals. I am good at making other people feel comfortable, quick to make friends, and I think that I could help bring people together.

**3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? (200 words max)**

I have had experience in leadership both from being the captain of my high school cross country team and from working as a camp counselor over the past few summers. I organized unique events for both my cross country team and the summer camp, and I could do the same as a member of Alpha Kappa Psi. I consider myself to be a creative and open-minded person who can add variety and excitement to even the most mundane objects or tasks; I've turned color-runs into glitter-runs, old cars into canvases for artwork, and tablecloths into dresses. I would love to share more creative ideas with the business fraternity, and help plan future events! If I were to be extended a bid, I would be wholeheartedly committed to the organization, and would do my best to enhance the social, professional, and educational atmosphere at AKPsi.
