

Alpha Kappa Psi Professional Application

1. What are your short term and long term professional goals? (75 words max)

Becoming a brother for Alpha Kappa Psi would be my biggest short term professional goal. Surrounding myself with genuine people who share the same interests as me would further motivate me to succeed. In addition, I would like to land my dream internship at SpaceX as a Supply Chain Management Intern over this upcoming summer. A long term professional goal would be to run my own startup and make an impact in the world.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? (75 words max)

With its vast student and alumni body, Alpha Kappa Psi is able to help me with my professional endeavors by introducing and connecting me with people that share the same passions and drive I have to succeed. Furthermore, I think Alpha Kappa Psi can prepare me for the business world by educating me on important business etiquette and small nuances.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? (150 words max)

As a person who loves to learn and grow, I try my best to keep up with my own requirement of reading one book a week. Through this, I am able to educate and inform my fellow brothers on new exciting concepts, or simply engage in thoughtful conversations on current events. In high school, I took the opportunity to further my passions and immersed myself with an abundance of STEM courses (Internal Medicine, Neuroscience, Astrophysics, Cosmology, Biology, Chemistry, Organic Chemistry, Physics, AP Computer Science, and AP Calculus.) Given my STEM heavy background, I plan on pursuing the technology industry, specifically Virtual Reality and Artificial Intelligence. Through the few events that have been hosted, I have already met a few brothers that are interested as well in technology and the evolving world, and I can't wait to further engage with those brothers.
