## Alpha Kappa Psi Professional Application

please send an email to akpsigammanu@gmail.com by 11:59 PM on Sunday,

### Questions

#### **1. What are your short term and long term professional goals? (75 words max)**

My short-term professional goals include finding an internship, applying to the honors program, and studying abroad. I want to learn coding and plan on taking QTM 3 for data analytics.

Long-term professional goals include working at a company whether it be marketing, sales, or consulting. I then plan on moving forwards to work on Wall Street. Ultimately, working at a hedge fund. Between that time, I would love to raise a family!

#### **2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? (75 words max)**

AKPsi creates a comfortable setting for me to thrive in socially as well as academically. The brothers are all very willing to support one another, such as the four founding members who plan on living together and working at Wayfair in Boston. Through this professional organization, I can have a brother who has already walked the path that I will soon be walking in terms of applying for internships and gathering job experience.

#### **3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? (150 words max)**

AKPsi is a relatively young organization at Babson after it was re-chartered. By this, AKPsi can evolve as the founding brothers are gradually letting their littles run the organization. I believe I can add my radiant personality and make new friendships. I look forward to the many volunteer events for good causes. These events will allow me to share my creativity and in return hone my passions. I will also present myself with a good brotherly image for future members through etiquette, mannerisms, and friendliness. I will continue to create the person I am and with a big, I can become a more colorful person. Whether it be sharing brotherly stories or asking about professors, I will then bring what I have learned from my big and pass it down. I will be that shoulder that future littles can lean on because I have walked that path and I love Babson! My proudest achievement as a brother would be to watch my future little take on small achievements and become successful academically and make plenty of friends!
