Questions:

1. Spades, Hearts, Clubs or Diamonds. Which one are you and why? **(150 words max)**

I believe out of the four suits, I am most like a Heart. Many people associate a Heart with terms such as caring, supportive, and genuine, three terms that I would use to describe myself. Firstly, I am the kind of person who will put the needs of others ahead of my own. If the only free time I have is from 4PM to 5PM and someone asks for my help practicing for an interview, for example, I will always say yes. I could be completely drained from the day, but if I know that I can help, I will because I want them to succeed and will try my best to support them in whatever they are doing. Additionally, I try to be sincere at all times with those around me, giving my honest opinion and being completely open, especially when I think that is most beneficial for someone.

2. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

Although I am only a Sophomore, I have had experience working in various professional fields. Over the course of three years, I have worked in the food, retail, and service industries. Additionally, I have had an internship at a small nonprofit in New York, a remote internship at a tech startup based in Massachusetts, and this upcoming Summer I will be interning at a large financial services firm in New York.

As a brother of Alpha Kappa Psi, I would do my best to give advice to any brothers that needed help professionally, however I can. Whether it is fixing up a resume, looking for internships, or even developing certain professional skills like interviewing and public speaking, I will gladly take the time to provide whatever help that I can give them. Using my previous experiences, I would do whatever I can to help my brothers achieve their professional goals.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

What makes me unique is a combination of my drive and altruism. I am constantly looking for new learning experiences, professional or otherwise, and am willing to go to great lengths to achieve my goals. If I do not know how to do something, I will spend the time to learn. I always put maximum effort into each task and never give up until it has been completed. Above all else, I learn from my mistakes and use them to achieve my goals.

Despite this, I am also the kind of person who will drop everything that I am doing to help someone, even if I barely know them. As long as I know that I will still finish what I need to on time, I will choose to help them, whether they need help studying for an exam, fixing up their resume, moving things into their dorm, or just need someone to talk to.

If I were to be extended a bid, it would be the same for my brothers. I would strive to learn whatever I can from them, but I will also always be there for them, whenever and wherever they need me, and for whatever reason.
