

Alpha Kappa Psi Professional Application

Please answer the questions below. When you have finished answering the questions, please send an email to **akpsigammanu@gmail.com** by 11:59 PM on Sunday, February 11 with the following attached:

- Document with answered questions
- Single-page Resume

Questions

1. What are your short term and long term professional goals? **(75 words max)**

My short-term goal is to get an internship over the summer, preferably in the finance industry. I hope the experience will either reinforce my interest in the finance industry or change the field that I would want to work in. My longer-term goal is to get accepted into a job in the U.S. to gain experience. Eventually, I want to start my own financial technology business back in Indonesia.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

One area that I believe Alpha Kappa Psi can help is to develop my networking skills. I would say that I lean towards the introvert side, so networking with people, and even public speaking, does not naturally come to me. Help and tips with resume writing and interviews will also help me reach my professional goals. Having a supportive community means I can learn from each brother's professional experiences to eventually shape my own.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

One of the ways I can help Alpha Kappa Psi is to help it grow as an organization. As a Chinese Indonesian, I believe I bring unique insights into the culture in Asia and an understanding of business contexts. I can partake in discussions on the stock market, cryptocurrencies, and finance in general, but through various lenses of the world. This sharing of knowledge and experiences can help broaden Alpha Kappa Psi's already diverse brotherhood. Another unique experience that I bring is growing up as part of a family business. Having helped my dad with his endeavors since 2010, I had the opportunity to be involved in business events, such as attending meetings or helping set up a company booth in an expo. This first-hand experience may not be recognized like an internship, but I believe it fostered my interest in entrepreneurship and helped shape the person I am now.
