1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? **(200 words max)**

As a college freshman, my goals for the future are unlimited. In the short-run, I'd like to develop myself to be like a business leader and be able to network efficiently with people that can mutually help me to develop myself into the person I strive to be. In the long-run, I hope to become a business leader and impact society beneficially through my business and its service. Alpha Kappa Psi can play the biggest role in pursuing my professional goals as my goals coincide with Alpha Kappa Psi's vision and mission as they are "recognized as the premier developer of principled business leaders". By simply becoming a brother of Alpha Kappa Psi, I am opening my network to a large number of future and current business leaders. Alpha Kappa Psi brothers can guide me through my freshman year of college and I'd really appreciate having a mentor or a older brother that I can rely on.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood? **(150 words max)**

Granted that I become a brother of Alpha Kappa Psi, I can contribute innovation and creativity especially in strategies for more effective teamwork and unity as I have previous experience bringing a group together as the president of my high school's Red Cross Club. I can also contribute my dedication by partaking in anything that can benefit the brotherhood as I have done in the past to a non-profit organization in which I devoted my four years of high school to it. I can contribute my unique vision in order to spread our horizon beyond the Babson campus. I feel that I can help AKPsi to become more than a business fraternity but it can develop into a community. If I become a brother, I'd like to be a brother that the future generations can rely on. I'd like to open my background to others and enable them to develop an understanding for different cultures as I am both Korean and Chinese.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

Of all the applicants I am not better than them. I am just average. However, I believe that it is because I am just average that I have a greater potential to develop myself more. I am not unique academically but I can say that I am unique as a person where I can bring all people

together as one and develop connections that can last forever. I am a team player that can help all brothers reach success and provide them with encouragement. I should be extended a bid because I feel that I connect with the brothers well and my personality and character fits that of the brothers of AKPsi. I know this due to my participation in the events that AKPsi has hosted so far. It would be a honor to become a brother of AKPsi.
