Under no circumstances will late applications be accepted. You **MUST** submit an application in order to move on in the rush process!

1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? **(200 words max)**

Majority of the goals that I have are long term, these including: joining a nonprofit organization, learning other languages, and being motivated and dedicated towards the goals that I put in place for myself. I know for sure that Akpsi would help me achieve these goals because Akpsi is full of dedicated people who follow their own goals and try really hard to achieve what they want to. Being around these people alone would be a great advantage as most of the time hanging around people will cause you to become more like them so it would make sense that some of that dedication and willpower will rub off on me. Otherwise, Akpsi would help me by being in contact with people who are will eventually become the world leaders of tomorrow and as a result less boundaries will be in my way if I communicate with others and make use of people and resources afforded to me.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood? **150 words max)**

If I was brother in Akpsi I think that I would bring a lot to the group, specifically about the difference in experiences in life, I think that I find that not a lot of people have the same outlook on life or know the same things as I do partly due to the background I grew up in and how rare it is to find people from that same background in the college. Other than that I think that I could contribute to the

team is the ability to do hard work and knowledge of the passions that I have some of which are: chess, basketball, philosophy, science, literature, space exploration, jazz, music, learning about the brain. I'm just someone who's willing to learn just about everything and I think that's a pretty desirable thing to have in an organization.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

Out of all the applicants of the chapter I think that I differentiate from other candidates in the way that I can learn and adapt to whatever comes my way. I pride myself on being able to fit into whatever situation. Always being able to switch up the things that I should be doing if the need arises, that's what allows me to be the person that I am. where I am unwavering in the face of change and confident enough to say "I can figure it out". Other things that make me different from the others is that I am sincerely passionate about making myself the best person I can be. That Idea specifically in my opinion fits well with the philosophy of Akpsi. That is somewhat the reason why I did try to join Akpsi. I have always been the type of person who is more than willing to reflect on their past mistakes and to stop think about them, fix them and try again. It is just a natural inclination of my character to do that. That differentiates my well from the average prospect and alongside that fits well with Akpsi's general philosophy.
