You **MUST** submit an application in order to move on in the rush process!

Duruo Murray

Class of 2021: Sophomore

1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? **(200 words max)**

Short term goals: In the near future, I will be working more with some of the organizations that I am a part of on campus. I will be taking on the President role for Babson Pride and I will continue to be the VP of Marketing for ONE and MSA. I will also be working on my startup: Match Press Dress, hopefully to get noticed more and potentially work with several startup fashion companies. In the near future, I would like to have a marketing or consulting internship, which could eventually turn into a full time job come graduation in three years.

Long term goals: In the next few years, I would like to work in corporate America or Startup Company within marketing or consulting department. I would want to do this for the first 5 to 10 years of my career so that I may gain some experience and hopefully apply this to my own image consulting company. While working, I would like to be able to save money in order to support my mom and the rest of my family who has supported me throughout my life. I would like to also find my own partner and develop my own life and family to call my own.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood? **150 words max)**

If I was an Alpha Kappa Psi brother, I would contribute my own sense of wisdom when it comes to giving a brother personal or professional advice. Throughout high school and college, I have endured many obstacles that I have shaped me as an individual and the way that I think and act. Each job that I have worked or every situation I faced, I realized that it came with a lessons. Those lessons and that knowledge, I am willing to teach and work with the brothers in order to help them better themselves both personally and professionally. I am willing to offer tough love and support for anyone that is in need. I would that person who can contact, day or night that you can come ask for help and I am willing to do it.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

Some of the things that makes me unique would be the impact that I have on a person without having to say much. Throughout my freshman and sophomore, people have come to me in order to seek counsel. I am willing to be generous with my time, even though, there are moments when I do not have time to spare. I will also find a way to make things work for myself and the others around me. Also, I am very determined. Last semester, I remember I did not end the semester with a good GPA. I took my first couple of semesters as a learning moments, I decided to step back from a few organizations I was a part of while still maintaining several e board positions. I believe I should be extended a bid because I am willing to try hard for everything that I am presented it. I always believe things happen for a reason, but I can change how I go about it.
