Questions

1. What are your short term and long term professional goals? **(75 words max)**

My short term goal is to expand my network to the best of my capabilities. I desire to meet as many ambitious individuals as possible. I also aim to improve my international management capabilities. Thus, I will be interning this summer in a finance firm in Turkey. For long term goals however, I aim to create my own company before graduating Babson. Using my network and international management skills I will create a successful business.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

My current understanding of AKPsi is that this is an ambitious competitive environment that aims to push its members to further improve themselves. As explained in my short goals, I aim to improve my network of ambitious people and AKPsi's atmosphere is the best place where I achieve this goal. The big-little relationship also could be very beneficial for my professional development since the constant communication and critique could help me grow as a person.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

As a brother of AKPsi I would bring a different mindset. Growing up in Turkey and choosing to move to USA by myself at the age 14 elevated my perspective to the world. I continued to shift my perspective my constantly travelling and learning about new cultures. While there are a lot of international students and travelers in AKPsi who most likely are from even more exotic countries or have travelled a lot more than I have, only a few share both characteristics. I also realized that only a few number of AKPsi brothers are passionate at branching out to Olin and Wellesley. I on the other hand am already taking classes at the Wellesley. I will also be taking courses from both colleges every single semester while I am in campus. I believe with my experience and ambition I will provide a different perspective to the AKPsi community.

Optional Submission

If you have any personal work (i.e. poem, art piece, programming scripts, etc.) that will help us understand your professional capabilities even further, feel free to include that with your application as well.
