Questions:

1. Spades, Hearts, Clubs or Diamonds. Which one are you and why? (150 words max)

I am a heart because I love being of help to others. If I have the knowledge necessary to help, I will do so because it allows me to create a positive impact and learn more about myself. Whenever my roommate has a problem with homework, I do not hesitate to help. By doing so, we are able to better understand the material and I am able to become a better teacher. Nevertheless, my passion to learn from others and be of service stems from the feeling of times where I wished for help but never received it. In high school, I led humanitarian events with over 450 students to donate to causes like the Rohingya crisis which made me learn more about the current events going on in the world. Additionally, I believe that if I help someone out, they can help someone else and the chain continues.

2. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? (150 words max)

If I were a brother, I would help the family in any way I can. This includes teaching brothers any skills that I possess (i.e public speaking or computer science). In addition, I would contribute my passion for learning and we could have interesting conversations. As Alpha Kappa Psi revolves around the professional work environment, I would help brothers perfect their LinkedIn and Resumes. Finally, if I find interesting job opportunities or internship programs, I would let my brothers know since that would smooth the job search.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? (200 words max)

I believe that I am different from the other applicants because I have been involved in many clubs, experiences, and jobs of different sorts, and the insights I gained from them are incomparable. For example, I have helped start 3 companies which taught me a lot about entrepreneurship and strategy – which is very difficult to learn by reading a book. In addition, I have worked as an asset and wealth management intern at JP Morgan which taught me about finance and the corporate environment. I would love to share anything I have learned with my brothers. In addition, I believe that the bid should be extended to me because I am looking to develop, not just professionally, but personally. I am not looking solely for an internship or just help perfecting my resume. I believe Alpha Kappa Psi is a family where I can enjoy myself fitting in and growing.
