1. What are your short term and long term professional goals? How do you think Alpha Kappa Psi can help you in your professional endeavors? **(200 words max)**
  - a. My short term goals are to develop a strategic understanding of the resources on Babson's campus as well as the individuals on the campus. Meaning, that there are many amazing people on campus and hidden resource gems on campus, that unbeknownst to me could play a large role in the overall puzzle of my career path at Babson. I intend to figure them all out by the end of Fall semester to enter Spring semester with a plan of approach.
  - b. In the long term, I plan to start and run my own company (retail, product based) with my colleagues and ideally influence social change/bettering the community. I expect to continue practicing real estate to the extent where I can bootstrap the business and get by with it.
  - c. A big component from my personality is I don't allow myself the satisfaction of expecting things from other people. I strongly believe that I can handle the business component and professional aspect on my own. Rather, I am just looking for a community that can support and challenge me! Any other value that results

from this partnership will happen because of compatibility—not because I am asking for it.

2. If you were a brother of Alpha Kappa Psi, what would you contribute to the brotherhood?

**150 words max)**

- a. Energy, time, and professionalism! I have a ton of social energy and I believe that once comfortable with the brothers, I will be able to move the agenda forward and build great relationships with everyone. Transitioning to a new campus is tough—which is why I value the power of joining a collective. Once initiated, I will put my time and best foot forward to contributing to AKPsi's mission. Additionally, I am entering Babson with a wealth of professional experience that I would love to share with others. With several different job experiences in dealing with people, I would be more than happy to share my stories and lessons with anyone interested in learning more about customer service, leading a team, and strategy.

3. Out of all the applicants, what do you think makes you unique? Why do you believe you should be extended a bid? **(200 words max)**

- a. Every applicant has something going for them, that's a given. While I don't think that I am any better than other applicant, I believe that I have a set of skills and experiences that are unique to myself. Entering Babson, I am a transfer student from a different private institution, Clark University. After spending 2 years at Clark, I took away a great understanding of myself, how college works, and how to succeed. I've also developed quite a number of work and extracurricular involvement on campus that allows me to be versatile in various different social/professional setting.
- b. Aside from my accomplishments, I am asking for a bid because I'm looking for a chance. I'm a risk taker. For an example, I chose to transfer. This entails starting over in a new school with the potential of being at a lower academic standing due to a lack of credits. I didn't have any immediate friends at Babson other than the ones I met a couple months prior. I chose to leave in the pursuit of greatness and

success. My point is, if you take a chance on me, I promise that I will excel socially and professionally, under AKPsi's brand.
