1. What are your short term and long term professional goals? **(75 words max)**

In the short term I want to gain experience in several fields of business, whether it may be through an internship or class. This is mainly because I want to explore all my options after which I would want to narrow down on few options. In the long term, I want to work in an established company in a field I aim to know by the end of my sophomore year.

2. Based on what you know so far, how do you think Alpha Kappa Psi can help you in your professional endeavors? **(75 words max)**

While meeting the brothers in all the events, what I heard very often was that the brothers have diverse interests and experiences in various fields. Through this, Alpha Kappa Psi can help me achieve my short term goals faster by taking advantage of the numerous experiences and knowledge that the brothers bring. Also, taking advantage of the alumni to gain internships is another way in which Alpha Kappa Psi can help me.

3. If you were a brother of Alpha Kappa Psi, how would you contribute professionally to the brotherhood? **(150 words max)**

With the minimal professional experience I have had till now, I feel my internship and other experiences I had in my gap semester would be a good contribution to Alpha Kappa Psi. In addition, coming in as a gap student could be of use, by showing people how they can spend time in a concrete way by making use of all their resources effectively. In addition, I would definitely want to learn from the senior students in Alpha Kappa Psi about their positions, and perhaps take their role in the future and be heavily involved in Alpha Kappa Psi. In addition, other than business I have interest in other fields too, which may be advantageous to an already diverse group. I have learnt C and C++ and am proficient in website designing which I aim to take to a higher level in order to improve my knowledge in computer science.
